- Led the successful delivery of frontend enhancements for 3 client projects

**ACMEGRADE PVT LTD**                                                                                                Certificate
Web Developer Intern                                                                                                10/2023 – 12/2023
- Finished 2-month training in web technologies including HTML, CSS, JavaScript, Node.js, Express, and MongoDB
- Acquired practical experience by developing E-commerce website project after 2-month the training period
- Collaborated closely with 5 team members on frontend development for E-commerce project

## SKILLS

**Programming Languages**: Java, C++
**Frontend Tools:** HTML, CSS, JavaScript, Bootstrap, Tailwind, React.js, Redux, Redux Toolkit, Material UI, Rapid API
**Backend Tools:** Node.js, Express, EJS, RESTful APIs, JSON
**Databases:** SQL, MongoDB
**Course Work:** Data Structure and Algorithms, DBMS, OOPS
**Developer Tools:** Git, GitHub, Vs code, Vite.js

## PROJECTS

**WANDERLUST** | HTML, CSS, Bootstrap, Node.js, Express, MongoDB, JavaScript                                        Live | Code
- Wanderlust enables travelers to book properties for short-term leasing
- Managed over 15 operations for Wanderlust website
- Used more than 10 packages including Passport.js, Flash, Mongo, Cookie Parser, EJS, Joi, Multer, Passport Local
- Managed deployment and continuous integration using tools like Git, GitHub Actions

**GYM TRAINER** | React.js, CSS, JavaScript, Material UI, Rapid API                                                Live | Code
- Developed a web app to guide users through exercises with demo more than 10 GIFs
- Implemented exercise recommendations using Rapid API's exercise-DB
- Integrated YouTube API for exact workout 4 to 5 demo video suggestions
- Designed the user interface with Material UI for an enhanced experience by using more than 5 react components

**MHCET COLLEGE GUIDE** | HTML, CSS, Bootstrap, JavaScript, Node.js, Express, JSON                                Live | Code
- Developed web app recommending 5 to 10 colleges based on MHT CET scores and user preferences
- Created REST APIs using Node.js and Express to filter colleges from JSON based on user input
- Built a responsive UI to filter colleges by 4 criteria such as score, department, Category, and location
- Utilized JSON for efficient College data storage, retrieval, and management of more than 50 colleges information

## CO-CURRICULAR ACTIVITIES

- Developed more than 10 projects: Simon Game, Netflix Clone, Amazon Clone, Spotify Clone, Portfolio, Weather Widget
- Solved over 200 Data Structure and Algorithm (DSA) questions.
- Coordinator at ORION 2023 Event with 200+ participants in ISBM Pune
- Presented research paper in international conference on personalized college recommendation for MHCET Applicants

## CERTIFICATIONS

- Certified in Data Structure and Algorithm with Java from Apna College                                            Certificate
- Certified in Full Stack Web Development (MERN Stack) from Apna College                                            Certificate
- Certified in Object Oriented Programming with C++ from PICT Pune                                                  Certificate

## EDUCATION

**SAVITRIBAI PHULE PUNE UNIVERSITY**                                                                                Pune
Bachelor of Computer Engineering with CGPA: 8.57                                                                    06/2020 – 06/2024
